PROFESSIONAL SUMMARY

Information Technology student with experience in web development and data encoding, building responsive websites and interfaces using multiple programming languages, WordPress, and basic SEO knowledge. Enjoys working on UI/UX and Previously worked as a data encoder, carefully recording and checking financial data from receipts in spreadsheets, building strong attention to detail, respect for confidentiality, and confidence working with data for analytics-focused roles.

WORK EXPERIENCE

Data Encoder, 02/2024 - 08/2024

Raeda Logistics Inc. - Remote

- Recorded and summarized expense amounts from receipts for company reimbursement and reporting.
- Entered and verified daily totals in the company's tracking sheets to support accurate computation.
- Reduced discrepancies in encoded amounts by double-checking figures and clarifying unclear entries.
- Maintained confidentiality of financial documents and handled receipts and spreadsheets with care and accuracy.

PROJECTS

Seven Café – Small Business Website (WordPress, Elementor, basic SEO)

- Built a multi-page concept website for a café using WordPress and Elementor, including home, menu, about, and contact pages.
- Configured a free SEO plugin, optimized titles, meta descriptions, headings, and images, and enabled caching to improve load speed and search readiness.

EcologiCal – Python-Based Calorie & Health Analyzer (Python, HTML, CSS, JavaScript)

- Developed a nature-themed web app that records meals and activities, calculates daily calorie intake, and provides simple health feedback using Python with a browser-based interface.
- Implemented a responsive UI with HTML/CSS/JS and hosted the project on GitHub for version control and easy deployment.
